Why Atlanta GA? - Georgia (GA) the state has been consistently ranked as the #1 destination to start a business in USA for over a decade by several Business Magazines and publications. The Republican party led state is very business friendly and several international giants like Mercedes, Porsche and NCR relocated their HQ from other parts of USA to Atlanta GA because of this. One of Hyundai's largest manufacturing plants in the world is in LaGrange, Georgia. Atlanta, the capital of State of Georgia, is considered the gateway to the Southeast USA, and the entire eastern seaboard of USA because of the strategic nature of Savannah and Brunswick seaports and Atlanta Hartsfield International Airport - the busiest airport in the world since 2000's.
